NEW SILVERLINE™ MUFFLER DELETE PIPE AVAILABLE

Macon, GA – ANSA Automotive has introduced a new Silverline™ Muffler Delete Pipe (Part # DMPD), which replaces the muffler in the original equipment exhaust system. By removing the stock muffler a reduction in back pressure and a deeper exhaust tone is achieved.

Manufactured from mirror finished 409 stainless steel, this delete pipe fits all 2004 – 2007 Dodge Cummins equipped with a 4" factory exhaust. Silverline Muffler Delete Pipes are also available for Ford Powerstroke & Chevrolet Duramax applications already equipped with a Silverline 4" performance exhaust system. For more information, visit www.SilverlineExhaust.com for a complete list of products and the company's online catalog.

**About ANSA Automotive**

ANSA Automotive is the exclusive North American supplier of Silverline™ Stainless Steel Exhaust products, high-performance stainless steel exhaust products, which include direct-fit single and dual systems for diesel trucks, exhaust systems for many popular sport compact models, as well as universal mufflers and tips for domestic and import cars and light trucks. ANSA Automotive also offers ANSA brand OE replacement mufflers and exhaust systems, ANSA SPORT® High Performance exhaust systems and mufflers and EPA-certified bolt-on catalytic converters for import vehicles. ANSA Automotive corporate headquarters and warehouse is located in Macon, Georgia; with a west coast distribution facility located in Commerce, California.
