## **ANSA Announces New Exhaust System for Fiat 500!**

ANSA Exhaust Technologies announces the release of the new, ANSA<sup>®</sup> Sport performance exhaust upgrade for the 2012 Fiat 500 1.4L – POP, LOUNGE and SPORT models.

Designed and manufactured in Italy, this rear muffler assembly features polished, all stainless construction, larger diameter dual exhaust tips and ANSA's tradition of quality, sound and precise fit.

Initial roll-out is offered with the iconic, ANSA<sup>™</sup> Crest sticker, as featured on our Fiat systems during the 1970's and '80's (as well as many other popular sports cars and exotics)!
